**Subject: DISCONTINUATION OF RECTRON INC PLASTIC CASE MELF
RECTIFIER AND TVS PRODUCTS**

To all sales and customers:

Rectron Inc is discontinuing the range of rectifier and TVS products in the plastic case DO-213AB (MELF) diode package and this withdrawal will comply with Rectron's product discontinuation guidelines, meaning last order acceptance date will be June 30th, 2007 and last delivery date will be to the end of December 2007.

The production capability for this product is capacity limited and showing no growth of sales during the second half of 2006 a decision was made to prune this product line. In order to ensure the highest possible degree of confidence we strongly recommend that customers submit their last time buy orders by February 28th 2007 the latest in order to comply with the Last Time Buy requirements. A list of affected products is appended below with a cross reference for re-qualifying Rectron's other diode packages that meet to the same fit, form and function parameters.

If you have any questions, please do not hesitate to contact your Rectron local sales representative or your account manager.

Sincerely,

Joseph Garofola
