

# RECTRON

## RECTIFIER SPECIALISTS

Rectron is committed to remaining compliant with worldwide environmental, health and safety laws and regulations related to the usage of hazardous materials. Specifically, Rectron products meet or exceed the requirements set forth in the recent European environmental directives - Restriction of Hazardous Substances Directive (RoHS) 2002/95/EC and Waste Electrical Electronic Equipment Directive (WEEE) 2002/96/EC. To meet the above goals, ensure the safety and health of our employees, and to protect our local environment, Rectron has banned the use and storage of each of the following known hazardous materials.

Aldrin, Endrin, Dieldrin  
Alkyl mercury compounds  
4-aminodiphenyl and its salt  
Antimony and its compounds  
Arsenic and its compounds  
Asbestos (all types)  
Asbestos(amosite)Crocidolite  
Azo compounds  
Barium  
Benzidine and its salts  
Benzotrichloride  
Beryllium and its compounds  
bis(chloromethyl)ether  
Bis(tributyltin)oxide  
Bismuth and its compounds  
Cadmium and its compounds  
Carbon tetrachloride  
C F C  
Chlordanes  
Chlorinatedparaffins  
Chlorine Hydrogen chloride (gas)  
Chloroform

Chloroparaffins  
Chlorophenols  
Chromium (hexavalent) and its compounds  
Cis-1,2-dichloroethylene  
Cobalt and its compounds  
Cyanides  
Cyanogen and its compounds  
DDT and its metabolite  
Dichloroethane  
1,1-Dichloroethylene  
1,3-dichloropropen  
Diethylamine and dimethylamine  
(N,N)-dimethylacetamide and (N)-methylacetamide  
(N,N)-dimethylformamide and (N)-methylformamide  
Dioxins  
Ethyleneglycol Ether and its Acetate  
Formaldehyde (monomer)  
gum containing benzene  
Halogenated Flame Retardants in general  
excluding certain Brominated Retardants  
Halogenated aromatic hydrocarbons (general)  
Halogenated dibenzofuranes  
Halogenated Flame Retardants

Halogenated Resin Additives  
Halon  
Hexavalent Chromium and its compounds  
Hydrazine  
Hydrochlorofluorocarbons, HCFCs  
Manganese and its compounds  
Mercury and its compounds  
Metal carbonyls  
Methylbromide  
beta - naphthylamine and its salt  
Nickel compounds  
Nitrosamide and nitrosamine  
4-nitrodiphenyl and its salt  
Organic phosphorous compounds  
Organic tin compounds  
Ozone depleting substances  
PBBOs  
PCB/HCB  
PCB/PCT  
Pentachlorophenol (PCP)  
Perfluorocarbons, PFCs  
Phenol monomer

Phosphorus red  
Phtalates (all)  
Picric acid  
Poly(vinyl chloride)  
Polybrominated biphenyl ; PBBs  
Polybrominated diphenyl ethers ; PBDEs  
Polybromobiphenylethers (PBBE)  
Polychlorotriphenyls (PCT)  
Polychlorobiphenyls (PCB)  
Polycyclic aromatic hydrocarbons  
Polyvinylchloride ; PVC  
PVC and PVC blends  
Radioactive substances  
Selenium it's compounds  
SF6 CO2 HCFC  
Simazine Thiobencarb Atrazine  
Tellurium and its compounds  
Tellurium and its compounds  
Thallium and its compounds  
Trichloroethylene & Tetrachloroethylene  
1,1,1-Trichloroethane & 1,1,2-Trichloroethane  
Xylenes
